

Eclipsing the Taj Mahal article printed in dawn e-paper

Omission of Taj Mahal in UttarPardesh Tourism Department booklet listing tourist attractions has clearly shown the picture of India's biasness, moral and religious intolerance. It shows India's two- faced policy which is evidently grotesque.

This decision will not only damage the tourism but also affect the economy of India, as Taj Mahal is one of the major attractions for the tourists all over the world. And imagining tourism in Uttar Pardesh or India without Taj Mahal is impossible.
